

## Curriculum Overview

The new National curriculum in September 2014 has provided a vital opportunity for our school to make the curriculum exciting and relevant to our pupils. The curriculum is planned in detail each term by all staff in our collaboration schools. This ensures that we have subject expertise to draw upon. This is the overview for the academic year 2016-17. It is subject to change as we grow through the year.

Religious Education is taught on a rolling programme. Each year we study in detail a different religion. In 2016-2017 this is Judaism
